Indictio Romana

Betwene Christmas and Michaelmas is viii. weekes and  
vi. dayes.

Michaelmas is the x. day of February.

The first day in Lent is the xviii. day of February.

Easter day is the xv. of April.

Ascension day is the xiiii. day of May.

Whitsunday is the third of June.

Trinitie Sunday is the tenth of June.

Aduent Sunday is the seconde of December.

Betwene Whitsunday and Michaelmas are three weekes.

Betwene Trinitie and Aduent Sunday are xiiii. Sundayes.

In the Spring let bloud at the right side,

In Harvest at the left side.

Good dayes to let bloud, are marked thus:

Good times for purging, thus:

Good times to bath, in this sorte:

Good times to sow, thus:

Good times to geide or libbe cattell, thus:

Good to graffe or plant, in Taurus, Capricorne & Pisces.

Good dayes to cut vines are when the moone is in Taurus,  
Virgo, and Libra.

When the moone is in Taurus, Virgo, and Capricorne, then  
is it good to stop sures.

It is good to cut haire in Taurus, Virgo, and Libra.

To comfort the vertue attractiue, in Aries, Leo, and Sa-  
gittarius.

To helpe the power retentive, in Taurus, Virgo, and Ca-  
picozne.

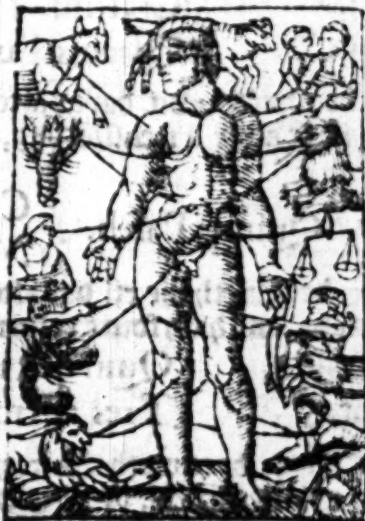

## The declaration.

ye shall finde the rising and setting of the sunne for every moneth on the first day throughout the whole yeare.

Also the beginning & ending of the termes, through the yeare.

☞ How the twelue signes do generare and rule in mans body.

Aries.  
Taurus.  
Gemini.  
Cancer.  
Leo.  
Virgo.  
Libra.  
Scorpio.  
Sagittarius.  
Capricornus.  
Aquarius.  
Pisces.

The head and face.  
The necke.  
The shoulders and armes.  
Brest, stomacke, & ribs.  
The heart, and the backe.  
Bowels & belly.  
Raynes & nauill.  
The secreete parts.  
The thighes.  
The knees.  
Shinnes & legs.  
The feete.

☞ The nature and qualitie of the twelue celestiaill signes.

Aries.	Hot and dry.	Gemini.	Hot and moyst.
Leo.		Libra.	
Sagittarius.		Aquarius.	
Virgo.	Colde and dry.	Cancer.	Colde and moyst.
Taurus.		Scorpio.	
Capricornus.		Pisces.	

*A right necessary rule to know  
the beginning and ending of the*

*Quintidies, and Octaves, and other*

☞ *Quintidies* beginneth the 11. of January and endeth the twelfth of February, and hath four returns, that is:

Octavo Hilarij.

Crafti. Purificat.

Quind. Hilarij.

Octavo Purificat.

☞ *Quintidies* beginneth the 11. dayes after Easter, and endeth the 11. dayes after Ascension day, and hath three returns, that is:

Quind. Pasche.

Quind. Pasche.

Craft. Ascens.

Tres Pasche.

Mense Pasche.

☞ *Quintidies* beginneth the 11. day after Whitsunday, and continueth six dayes, and hath three returns, that is:

Craft Trinitatis.

Quind. Trinitatis.

Octavo Trinitatis.

Tres Trinitatis.

☞ *Quintidies* beginneth the 11. day of October, and endeth the 11. day of November, and hath two returns, that is:

Octavo Michaelis.

Craft. Anniuntium.

Quind. Michaelis.

Craft. Martini.

Tres Michaelis.

Octavo Martini.

Mense Michaelis.

Quind. Martini.

☞ The Judges neither sit in Westminster hall nor hear any matters, on any of these dayes following (though it be in term time) that is, on the 11. dayes of January, February, March, April, May, June, July, August, September, October, November, and December. The 11. dayes before any term be the Carboquet week, except Christmas Eve, which is but four dayes before.

January hath xxxvi. dayes.

Your timber fill gardens w<sup>th</sup> v<sup>y</sup>.  
 doing your ground and follow your best.  
 For wheat and rye, rill by the Dore,  
 in Gods name for their changes in hande.

But rill at 8.

## Of the foure quarters of the yeare.

### *Of Winter the first quarter.*

Winter by nature is colde & moist,  
it beginneth the.rij. of Nouembze  
1570. whē the Sunne entreteth the  
first minute of Capricorne, & con-  
tinueth til the.rij. of March folowing, at what  
time y Sunne shal enter into Aries. This sea-  
son shalbe greatly inclined to cold and winds,  
with much moisture, and hath these diseases  
likely to ensue it. That is, twitchings in the  
sides, inflammations of the Lungen, Catars,  
coughes, paines in the brest, side and loynes,  
Ache in the head, & Palsies, with diuers other  
græues, the which I pray God to turne from  
vs for his sonne Chzistes sake.

### *Of the Spring time, the second parte of the yeare.*

The Spring time is by nature hot & moyst,  
which beginneth the.rij. day of March, and  
continueth till the.rij. of June. The greatest  
parte of this Quarter is like to be drie, with  
great and belement Windes, and in the ende  
rayne. I finde that in this Quarter many are

W.ij.

UNIV. like

CIB.  
CAMB.

### A Prognostication.

like to be troubled with the falling euil, madnesse, the blondie flure, coughes, polies, hozsenesse, lepries, scabbes, ache in the ioyntes, and diuers soze and Pestilent diseases are threatened by constellation of the Planets, which the Lord for his mercy sake auert.

*¶ Of the Sommer time, the third part of the yeare.*

Summer, which by nature is hot & dry, shall begin the. xij. of June, & continue till the. xij. of September, which shalbe for the most part faire and temperat. In this season many shall be troubled with Biles & Botches, proceeding of choller, Apostumes, & burning agues, Tertias & Quartans, with other infirmities very straunge. Therfore let vs pray that God may behold vs with his mercifull countenance, and turne his furie and rod from vs. Amen.

*¶ Of Autumne or Haruest the fourth and last part of the yeare.*

Autumne or Haruest, being colde and drie, beginneth the. xij. of September, and continueth till the. xij. of December. In this part of the yeare shalbe indifferēt weather, according to the time and season. The sicknesses of the  
quarter

## A Prognostication.

quarter past, shal partly raigne in this, and also Droopies, Consumptions, Stranguillions, falling sicknesse, and diuers affects ingendred of Melancholie, for auoidance of the which and other misse, let vs with amendment of wicked life offer contrite hearts with Prayer to the diuine Mercie of God almightie, to whome be all honoꝝ and gloꝝ, now and for euer.

Here foloweth a short demonstration of the viij. Planets in the Element, with their dispositions and qualities.

**T**here are .viij. planets in the Firmament which raigne and govern the influences, and give names vnto the dayes, for we haue .viij. dayes in the week, fro the which their names issue as followeth.

### OF LVNA.

**T**he first day is Monday, and taketh his name of Luna, the which is a good Planet, by nature colde and moist, he signifieth waifarers and messengers, he doth governe the Regmatikes, &c.

the ruleth in the body of mā the bryain. Hir go-  
uernement is on Monday and Friday night,  
hir euil dayes are Wednesday and Saturday.

### OF MARS.

The secōd day is Tues-  
day, & bozoweth his  
name of Mars, who is an  
euill Planet, and by na-  
ture hot & dry, he betoke-  
neth soldiozs. He gouer-  
neth in the body of man,  
the gall and raines, the  
backe & sides. He ruleth  
on the Tuesday and Sa-  
ter day night. His euill  
dayes are Wednesday, Thursday and Friday.

### OF MERCVRIVS.

The third day is Wed-  
nesday, & bozoweth  
his name of Mercurius,  
which wyth the god is  
good, & with the euil euil  
of quality vnstedfast. He  
gouerneth of the body of  
mā the thies, the ioynts  
and vaines. He ruleth  
Wednesday and Sunday  
night. His il dais are Friday, Saturday & Tuesday.

## OF IVPITER.

The .iiiiij. day is Thursday, & hath his name of Iupiter, which is a good Planet, & by nature hot & moist. He governeth the sanguine complexion: he is the Planet of wisdom & knowledge: of mannes body, he ruleth the lights the stomach and the left eare, also the armes and bellie, with the inner part of the braynepan. His dominion is on the Thursday and Monday night. His evil dayes are Saturday, Monday and Tuesday.

## OF VENVS.

The .v. day is Friday, & borroweth his name of Venus, the which is a good Planet, by nature cold and moist, & governeth the Sanguines, she is fortunate, & a signifier of womens garments & faire sights. She hath of the body the fatnesse, the matrice & the lower part of the belly: she rules the Friday and Tuesday night. Her ill dayes are Wednesday & Tuesday.

## OF SATVRNE.

**T**he. vi. day is saterday and taketh his name of Saturnus, which is the highest and vppermoste Planet, by qualitis euil, by nature cold & earthy, his gouernment is ouer the Melancholike, he signifieth workers of base sciēces & vile hādicrafts.

In the body of man he ruleth the stomack, the spleene and inner part of the ear. He ruleth on the Saterday and Wednesday at night. His ill dayes are Wednesday, Thursday & Sunday.

## OF SOL.

**T**he. vii. day is Sunday, & hath his name of Sol, a very good Planet, by nature hot & dry. He gouerneth the Sanguine cōplexion. He signifieth men of highe estate, & possesseth y hart & marrow of mans body. On Sunday & Thursday

night he ruleth. His euil dayes are Saterday and Monday.

¶ To knowv the Ebbing and Flowving from the  
byll of Portland to the riuer of Thames, thorowc the  
narowc Seas, ypon the Chaunge day for euer.

**O** your change day it floweth at the bil of  
*Portland* and the *Dowries*, & at *Beche* all  
along the coast: Southeast and by East, and  
Northwest and by West. At *Isle* it floweth  
at *Alderne* and the *Wayne* head all along the  
coast of *Normandie*, Southeast and by East, &  
Northwest and by West. It floweth also at *y*  
*Scutter* & *Seales* clines, all along the coast of  
*Fraunce*, Southeast & Northwest. Also at the  
*Beche* & at *Dongin*, & at *Douer*, all along the  
coast, Southeast and Northwest. At *y* *Porte*  
*Furland*, Southeast & by Southe, and North-  
west & by North. Also at the lands end South  
& North. At the West end of *y* *Porte*, entring  
into the Riuer of *Thames* South & by West,  
and North & by East. At *Gravesend*, Southe  
Southwest; & North Northeast. At *London*  
bylde Southwest & Northeast: and note that  
the shut of the bylde doth cause it to flow but  
fue houres & ebbe seven, but the tide doth run  
thzough the bylde West Southwest, and so it  
floweth thozow the botome of the narrow seas  
South and North. And thus it floweth in all  
these places, as here before said on the change  
day, & reckon how it floweth on your Quarter  
day, and euery day in the whole Mone.

The Distances of Miles.

How it Ebbeth and Floweth from  
Barwicke to the River of Thames.

**O**f the Change day, betwene the holy I-  
land and Lynmouth, it floweth Southe  
Southwest and North Northeast. Be-  
twene Lynmouth & Flambozow hed South-  
west and Northeast. Betwene Flambozowe  
head and Burlington in the Bay, Southwest  
and by West, and Northeast and by East. Be-  
twene Burlington & Laurus, West South-  
west, and East Northeast. Betwene Laur-  
nas and Cromer all along the Welles, East  
Northeast. Betwene Cromer and Permouth,  
and by Permouth roade to Laistowe Northe-  
roade, Southeast and Southwest. Betwene  
Laistowe roade and Wyf orde Pas, Southeast  
and by South, and Southwest and by North.  
Betwene the Pas and the Ware heade of  
Colne water, South and by East, and North  
and by West. At the Spets and at the Obew,  
and all along the Shin, South and Northe.  
And at the West end of the Noze, South and  
by West, and North and by East.
